

## LCCI team expands its horizons

EDI has recently been accredited to deliver LCCI qualifications in Trinidad and Tobago.

Following a comprehensive application process which included a visit from the Accreditation Council of Trinidad and Tobago (ACTT) in February, LCCI products have been granted accredited status.

ACTT is the governing body for the assurance of quality post-secondary and tertiary education in Trinidad and Tobago. Registration with the ACTT is mandatory for all foreign providers offering qualifications to post-secondary or tertiary level institutions in the region.

Commenting on the news, Tom Austin, EDI's Director of International Business Services said: "We are delighted to have received this accreditation from ACTT and we very much look forward to strengthening our relationships with learning providers and students in Trinidad and Tobago in the months and years to come." ■
